### **B. UniCredit Bank GmbH chooses to not apply the following provisions of Regulation (EU) 2016/1011 in respect of the non-significant benchmark or non-significant benchmarks identified below.**

As UniCredit Bank GmbH, we support the objectives of Regulation (EU) 2016/1011 to establish a regulatory framework at the European Union level. However, for reasons of proportionality, and given the multitude of different types and sizes of benchmarks, a less detailed system should apply to us. In the following, we describe which individual corporate rules apply. In our opinion, these represent a reasonable and equivalent substitute for the articles of the Benchmark Regulation as given below, which we do not wish to apply.

|  | <p>“Conflict of Interest Policy” and UniCredit Bank GmbH “Code of Conduct” address the identification, disclosure, prevention, management and mitigation of conflicts of interest. However, the resources necessary in order to establish an operational separation of any part of the administrator's business that may create an actual or potential conflict of interest are out of proportion relative to the total value of all financial instruments, financial contracts or investment funds linked to the administered benchmarks, which are far below the upper threshold for non-significant benchmarks.</p> <p><b>Article 4(7) (c), (d), (e):</b><br/> Due to the nature of UniCredit Bank GmbHs business it is ensured that employees and any other natural persons whose services are placed at their disposal or under their control and who are directly involved in the provision of a benchmark: (1) do not have any interests or business connections that compromise the activities of the administrator concerned; (2) are prohibited from engaging in bids, offers and trades on a personal basis or on behalf of market participants, and (3) are subject to effective procedures to control the exchange of information with other employees involved in activities that may create a risk of conflicts of interest or with third parties. This is ensured by the implementation of the UniCredit Global Policies “Conflict of Interest”, “Outside Business Interest” and “Inside Information Management and Information Barriers” (these policies can be provided to the relevant competent authorities) in a more general manner than required in Article 4(7) (c), (d), and (e). The requirements necessary to implement Article 4(7) (c), (d), (e) specifically with respect to the determination of a benchmark or affection to a benchmark are out of proportion relative to the total value of all financial instruments, financial contracts or investment funds linked to the administered benchmarks.</p> <p><b>Article 4(8):</b><br/> The resources necessary in order to establish and implement internal control procedures as described in Article 4(8) are out of proportion relative to the total value of all financial instruments, financial contracts or investment funds linked to the benchmarks administered by UniCredit Bank GmbH.</p> <p><b>Article 5(2):</b><br/> The resources necessary for the development and maintenance of robust procedures regarding the oversight function (Article 5(1)) is out of proportion relative to the total value of all financial instruments, financial contracts or investment funds linked to the benchmarks administered by UniCredit Bank GmbH.</p> <p><b>Article 5(3):</b><br/> A review of the benchmark's definition and methodology by the oversight function is implemented at the launch of a respective benchmark. However, an annual review of the benchmark's definition and methodology as described in point (a) of Article 5(3) is impossible due to contractual and legal reasons, i.e. the Final Terms and Conditions, which contain the sole terms and conditions applicable to the securities linked to the benchmarks administered by UniCredit Bank GmbH, and UniCredit Bank GmbH's base prospectuses and supplements prepared in accordance with Directive 2003/71/EC (Prospectus Directive).</p> <p>Furthermore, the resources necessary to implement points (b), (c), (d), and (f) of Article 5(3) is out of proportion relative to the total value of all financial instruments, financial contracts or investment funds linked to the benchmarks administered by UniCredit Bank GmbH.</p> <p>Point (e) of Article 5(3) is considered as not applicable as no third party is involved in the provision of UniCredit Bank GmbH administered benchmarks.</p> <p>Points (g), (h), and (i) of Article 5(3) are considered as not applicable as administered benchmarks are not based on input data from contributors.</p> <p><b>Article 5(4):</b></p> |

|  |   |

|  | <p>The resources necessary in order to establish a separate committee or by means of another appropriate governance arrangement to carry out the oversight function are out of proportion relative to the total value of all financial instruments, financial contracts or investment funds linked to the administered benchmarks.</p> <p><b>Article 6(3):</b><br/> Due to the nature of UniCredit Bank GmbH's business a framework including (1) the management of operational risk, (2) adequate and effective business continuity and disaster recovery plans; (3) contingency procedures that are in place in the event of a disruption of the business by the implementation of the Capital Requirement Regulation (Regulation (EU) No 575/2013) and the implementation of the UniCredit "Business Continuity Management" (this policy can be provided to the relevant competent authorities) in a more general manner than required in Article 6(3) (1), (2), and (3).<br/> However, the resources necessary to implement points (a), (b) and (c) specifically for the control framework as described in Article 6(1) are out of proportion relative to the total value of all financial instruments, financial contracts or investment funds linked to the administered benchmarks.</p> <p><b>Article 6(5):</b><br/> The control framework is implemented via an internal directive at UniCredit Bank GmbH. The control framework is documented, reviewed and updated as appropriate.
